Installation der EMV-Dichtung How to install a shield gasket

- Legen Sie die Dichtung in die Nut der Profilunterseite.
- Insert fabric-over-foam gasket into the joint-grooves on the bottom cover.

- Beachten Sie bitte, dass auf beiden Seiten die Dichtung etwas übersteht, damit ein Kontakt zu den Frontplatten hergestellt werden kann.
- Ensure that a small portion of the fabric-over-foam gasket protrudes out in order to maintain a connection with the end panels.
